

Washoe Patriots is a peaceful yet powerful and growing group of citizens and businesses coming together to educate, support, and stand up for what is right.

Know your rights.

Constitution of the United States Article VI

“This Constitution, and the laws of the United States...shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

The Senators and Representatives before mentioned, and the members of the several state legislatures, and all executive and judicial officers, both of the United States and of the several states, shall be bound by oath or affirmation, to support this Constitution....”

Title 18, USC, Section 242

It makes it a crime for a person (federal, state, or local officials, police officers and other law enforcement, as well as judges, care providers in public health facilities public schools, & other public officials) acting under ‘color of law’ to willfully deprive a person of a right or privilege protected by the Constitution if said person(s) purport to act in the performance of his/her duties.

There is no legal precedent or legal authority for the United States government to “lockdown” its citizens. Know your rights.

- The United States Supreme Court has ruled in *Shelton v. Tucker* 364 U.S. 479 (1960) that the government cannot broadly curtail personal liberty. And there is no legal precedent or authority for locking down healthy citizens. The police power of quarantine only is possible against ill persons. *Jew Ho v. Williamson* 103 F. 10 (1900) and *Wong Wai v. Williamson* 103 F. 384 (1900).
- Current mandates & directives have no force of law behind them.
- No legislature has passed any laws regarding these mandates.
- No governor or mayor or commissioner can make law.
- Every test that shows positive is a **new** case even if it is done on the same person multiple times. This inflates the numbers.
- PCR tests analyze genetic matter from the virus in cycles and today's tests typically take 37 to 40 cycles, but experts say this is too high because it detects very small amounts of the virus that don't pose a risk.

Swine Flu Comparison Facts

Source: <https://www.cdc.gov/flu/pandemic-resources/2009-h1n1-pandemic.html>

Benchmark using the H1N1 influenza deaths in the United States:

- From April 12, 2009 to April 10, 2010, CDC estimated there were 60.8 million cases, 274,304 hospitalizations, and 12,469 deaths in the United States due to the (H1N1) pdm09 virus.
- The US economy was never shut down with even higher H1N1 influenza-related infection rates.

Covid/CCP Virus Facts

Source:

<https://www.cdc.gov/nchs/covid19/mortality-overview.htm>

- Week of 02.06.21 to 02.12.21 in the United States, all ages/all sex with confirmed or **presumed** COVID-19, coded to ICD-10 code U07.1 are **2,402 deaths**.
- Week of 02.06.21 to 02.12.21 in Nevada all ages/all sex with confirmed or **presumed** COVID-19, coded to ICD-10 code U07.1 are **76 deaths**.
- There were **underlying** medical conditions linked to these deaths listed as *flu, respiratory failure, hypertension, diabetes, vascular, cardiac arrest, heart failure, renal failure, intentional & unintentional injury, poisoning and other adverse events, other medical conditions*.

When will this end?

This abusive overreach of government authorities must end.

First it was 2 weeks, then 1 month to now over 11 months!

Lock downs restrictions have included:

- Instructions to stay indoors.
- 50% capacity, then 25% capacity.
- Mask mandates indoors to now outdoors.
- 6-foot social distancing.
- No shaking hands or hugging.
- No visiting loved ones in the hospital or nursing homes when they need you most.

Now the administration has said that it will be “well into 2022” before things change.

Now, double masks are being recommended.

Is this really a pandemic?
