

The
Reasonable
Doubt
Report

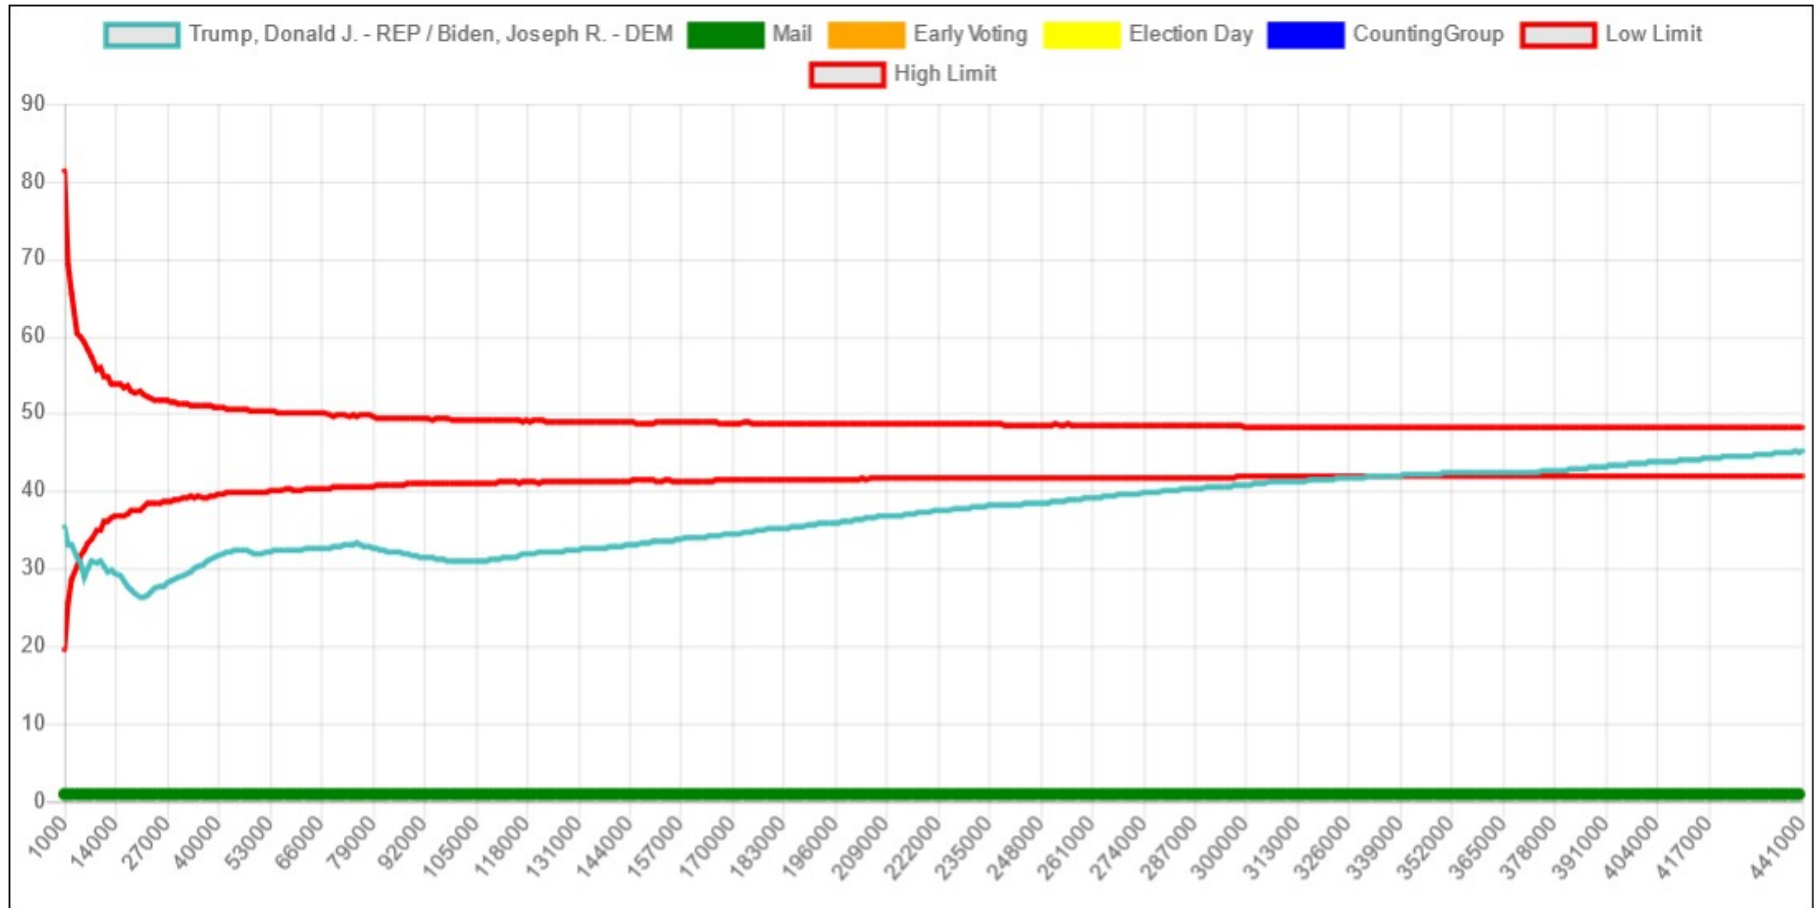

by Nicholas St Jon
September 14, 2022

Meeting with Sheriffs September 14, 2022

- Introductions
 - Janice Hermsen
 - Keith Hanly
 - Jeff O'Donnell
 - Play Jeff video
 - Nicholas St Jon
 - Faired Line curve program on US Submarines
 - Provisional Voting Report → Opens an Investigation
 - Cliff Curtis – wrote the 51%-49% code installed in the machines in the early to mid 2000s proving vote counting machines could be manipulated
- Building the case
 - In court there must not be “reasonable” doubt
- Jeff O'Donnell graphs
 - Clark County
 - Douglas County
 - Washoe County
- Washoe County 2020 Cast Vote Records Analysis
 - Marsha Berkbigler vs Alexis Hill Commissioner District 1 2020 analysis
 - First 5,000 votes of ~53,000 counted
 - It's a wild ride
 - Hill has 77 runs of 10-27 sequential votes counted
 - Berkbigler has 3 runs of 8
 - Hill jumps out to a 71.3% to 28.7% lead in first 5,000 votes counted with a 2,131 vote lead
 - Middle of the counting, 25,000 – 30,000
 - Berkbigler wins that grouping of 5,000 56.3% to 43.7%
 - Last 5,000 set
 - Berkbigler wins 50.2% to Hill's 49.8%
 - Berkbigler vs Hill Running Totals Graph 1
 - Linear with a predetermined slope for 1st 25% of votes counted
 - Extended trend lines show what would have been results if that slope had been maintained throughout the entire counting processing
 - Berkbigler vs Hill Running Totals Graph 2
 - Slope changes but stays unnaturally linear from 25% mark out to 45% mark
 - Extended trend lines show that would have been results if that slope had been maintained throughout the rest of the counting processing
 - From 45% to 100% is more indicative of a no machine algorithm interference counting process
- If there's nothing to hide
 - Denied Nicholas access guaranteed by NRS to watch the post election machine certification processing
 - Denied requests for the VVPAT “audit trail” paper rolls and denied the .sha files which are the electronic “image” files of every paper ballot run through the tabulator machines

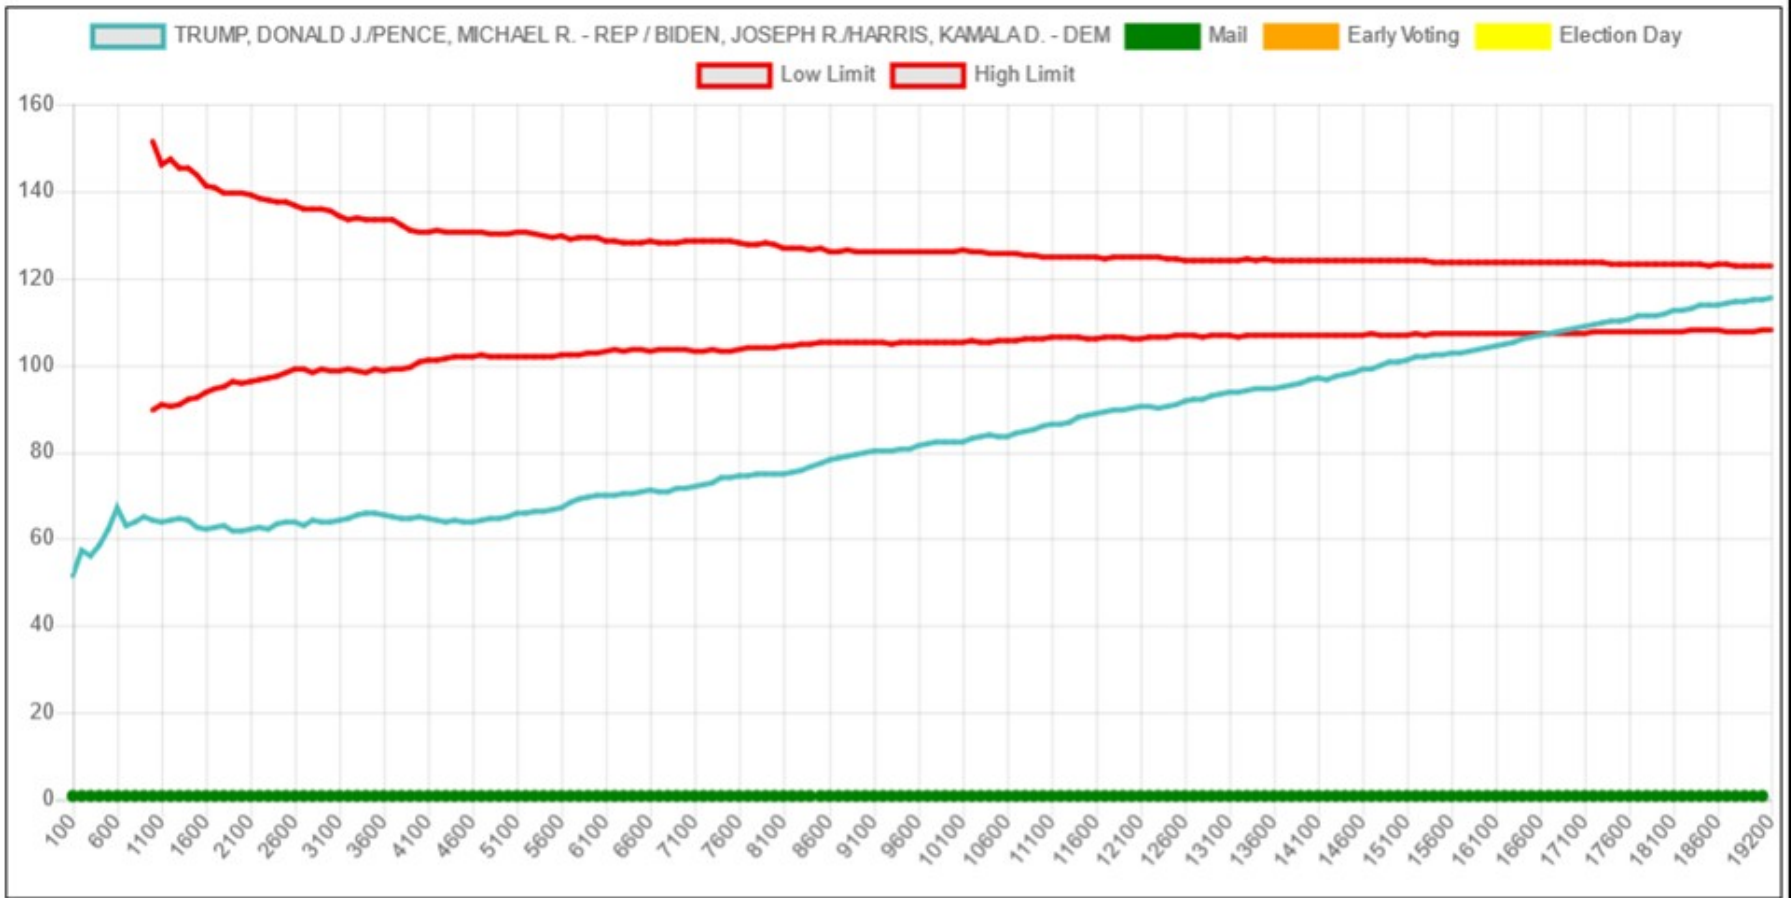

2020 Election Ratio - CLARK - Mail

Totals From CVR					
Candidate	Mail	Early Voting	Election Day	CountingGroup	Total
Trump, Donald J. - REP	136,916	234,410	59,457	0	430,783
Biden, Joseph R. - DEM	303,596	171,712	46,423	0	521,731

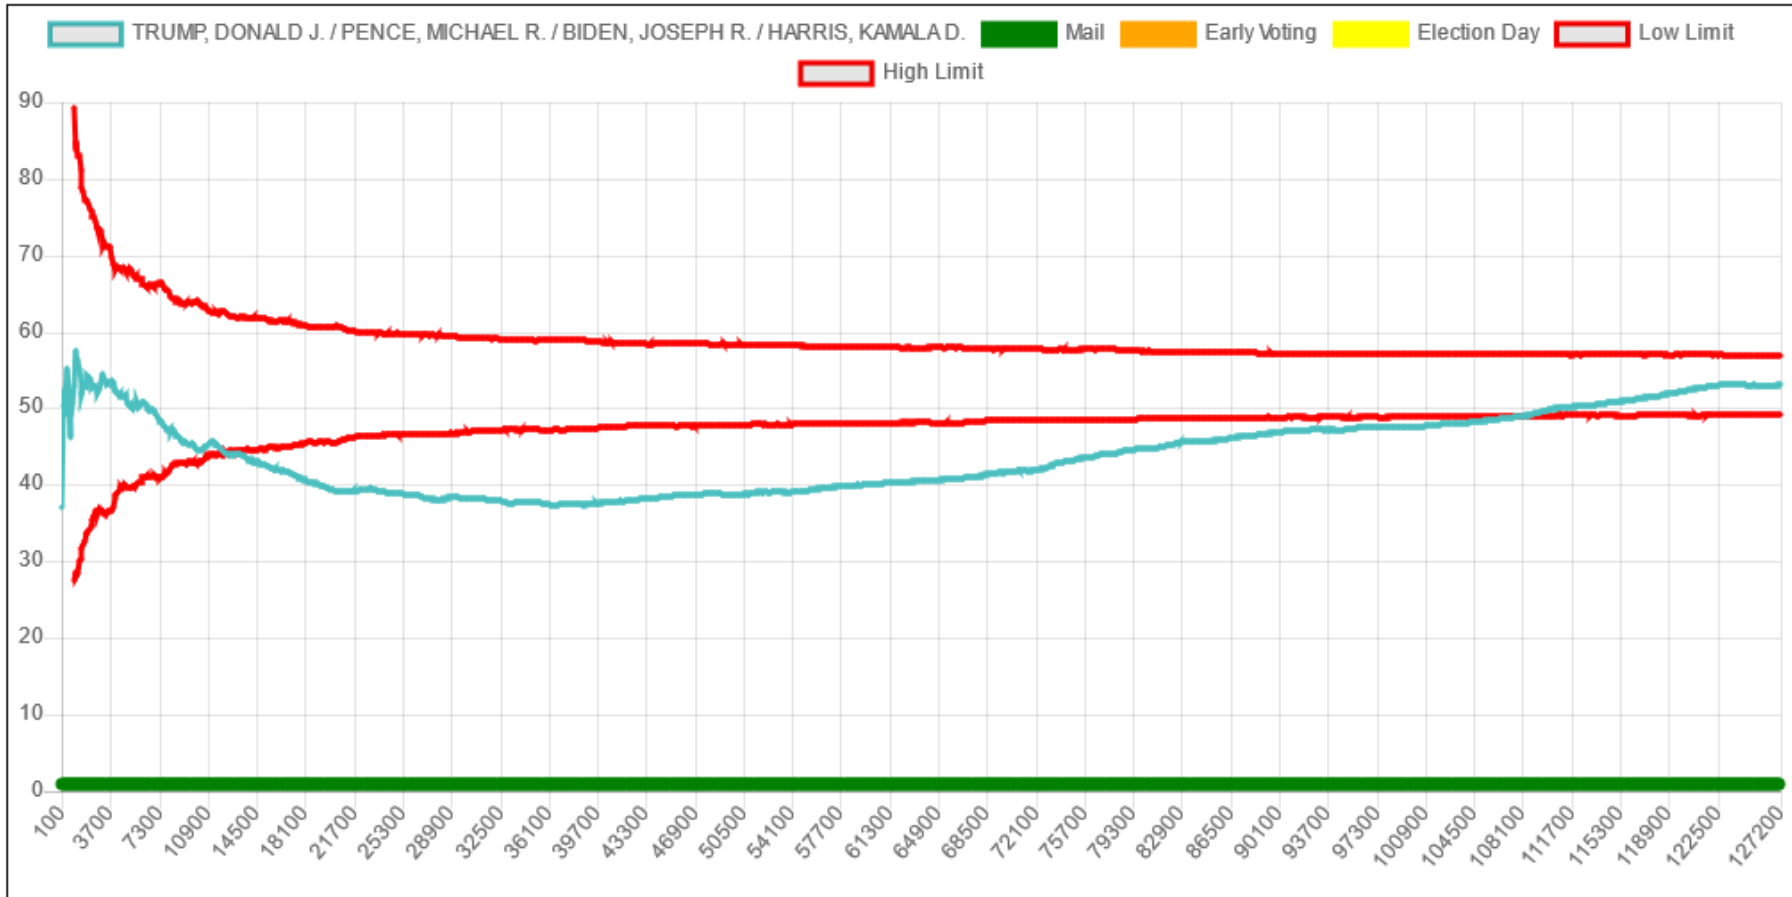

2020 Election Ratio - DOUGLAS - Mail

Totals From CVR				
Candidate	Mail	Early Voting	Election Day	Total
TRUMP, DONALD J./PENCE, MICHAEL R. - REP	10,259	8,541	2,830	21,630
